## Kansas City Ministry

There are over 4,000 international students and scholars in the Greater Kansas City (Kansas and Missouri) area. Following are a few overview details about the current International Students, Intl (ISI) ministry:

### Overview

Kansas City is a growing and vibrant mid-sized metro area of two million people, with an exciting sports scene and numerous software and biotech companies. It is a beautiful city uniquely positioned in the geographic center of the country.

ISI has strong relationships with Kansas University Medical Center (KUMC), Avila University, University of Missouri-Kansas City (UMKC), and Park University. We are looking for a City Director and the next generation of godly leadership to take over the role of our current director of 25 years to grow and further develop and lead the ministry where God wants to take it next. We are also in need of additional Campus Ministry Staff members.

New team members moving into open positions will come alongside current leaders to work together, assuming leadership roles when appropriate, in this well-established ISI local ministry. ISI Kansas City is seeking energetic, tech-savvy individuals to reach out effectively with the current generation of international students/families.

### Organizational Objective:

To give every international student in the city or area an opportunity to hear and respond to the Gospel by supporting staff, mobilizing the Church for the Great Commission, recruiting new staff and volunteers, and championing the vision for international students in the Kansas City area, as well as ISI's Rocky Mountain/Plains Region.

**NOTE: Staff positions are fundraising positions for part- or full-time (preferred) service.**
